Lead Product Designer with 15+ years delivering enterprise B2B SaaS, consumer mobile, and AI-native products from startup founder to LinkedIn scale. At LinkedIn, launched ad formats driving advertiser revenue and engagement across a global B2B audience; built AI-powered design tools using Claude to accelerate research and iteration; and prototyped and contributed bug fixes directly on LinkedIn's production codebase, while designing and shipping products end-to-end as a founder.

Experience

LinkedIn

Senior Product Designer (Staff Level)
